

**MEDICAL SERVICES PROVIDED BY FACILITY**

**I. INTRODUCTION**

**FACILITY LOCATION:**

The Service Provider shall provide detention services for detainees at the following institutions:

**Theo Lacy Facility  
501 The City Drive South  
Orange, CA 92868**

**James A. Musick Facility  
13502 Musick Road  
Irvine, CA 92618**

The Service Provider shall provide detention services for not more than 72 hours at the following institution:

**Intake & Release Center (IRC)  
550 N. Flower Street  
Santa Ana, CA 92703**

**II. SERVICES PROVIDED AT THE INTAKE & RELEASE CENTER**

- A. Triage – Medical and Mental Health Screening. Information from the Triage process will be one of the factors used in determining the housing location of the ICE detainee (either at Theo Lacy or James A. Musick).
- B. Initiate medical and/or mental health chart as needed
- C. Assessment of medical and/or mental health condition.
- D. Prescribe medications and other treatments as needed
- E. Up to 72-hour hold for the following (depending on bed availability):
  - 1. ICE detainees found during the Triage process to have medical or mental health conditions that may reasonably be stabilized within 72 hours.
  - 2. ICE detainees with mental health conditions requiring specialized housing pending transfer by ICE to another Service Provider
  - 3. ICE detainees during the course of their detention experience acute onset or worsening of medical or mental health conditions that cannot be accommodated by the Service Provider and are pending transfer by ICE to another Service Provider.

**III. Services Provided at Theo Lacy**

This is a male only facility. Summarized below are examples of the types of conditions/diseases/ailments that can be treated/accommodated based upon the local inmate-patient population. The final determination for medical conditions which will be accepted will be at the discretion of the CMS Medical Director or his designee. Any chronic medical condition/disease state that can be reasonably managed in an outpatient ambulatory care setting, including but not limited to:

- A. Asthma
- B. Hypertension

- C. Type I and II Diabetes Mellitus
- D. HIV/AIDS if medication is approved by ICE and cost of the medication is reimbursed to the Service Provider in accordance with Article I.D of this Agreement.
- E. Communicable diseases (CDs)[Caveat: Accommodation of detainees with CDs that require contact isolation only as a control measure will be dependent upon the availability of single-celled housing at that facility]
- F. Patients/Detainees that require temporary use of walkers, crutches, casts, and wheelchairs
- G. Detoxification for acute mild alcohol and opiate withdrawals (Not long-term detoxification treatment)
- H. In-dwelling urinary catheters
- I. Hunger Strikes (due to time commitment and required documentation, only 2 Hunger Strike detainees will be accepted at a time without staffing revision)
- J. Ambulatory Post Surgical Care
- K. Minor wound care
- L. CPAP Treatment (this will be dependent on the availability of electrical outlets in the module)
- M. Physical disability requiring minimal assistance with activities of daily living (ADLs)
- N. Coumadin therapy if medication is approved by ICE and cost of the medication is reimbursed to the Service Provider in accordance with Article I.D of this Agreement.

#### **IV. Services Provided at James A. Musick**

This facility accommodates both male and female ICE detainees. ICE detainees housed at the James A. Musick facility must be ambulatory and have relatively low medical or mental health needs. The final determination for medical conditions which will be accepted will be at the discretion of the CMS Medical director or his designee.

#### **V. Medical Refusals for ICE Detainees**

Summarized below are examples of the types of conditions/diseases/ ailments which cannot be accommodated for ICE detainees at the Theo Lacy and James A. Musick facilities. The final determination for refusals will be at the discretion of the CMS Medical Director or his designee. The following are examples of general conditions which may warrant a decision of medical refusal by the Service Provider: If the below issues are resolved, the ICE detainee can be re-evaluated for medical acceptance or re-entry:

- A. Conditions requiring acute hospitalization and/or “around the clock” monitoring
- B. End stage medical disease states that have resulted in significant physical disability and/or incapacitation of the ICE detainee.
- C. Infectious disease conditions during the communicable phase of disease that require airborne infection isolation, i.e. tuberculosis, acute varicella (chickenpox), etc.
- D. Demonstrable suicidal, homicidal, self-mutilating or gravely disabled/psychotic behavior and/or ideations
- E. Mental health conditions/disease states that require specialized housing.

**VI. Hospital/Out-Patient Provider/Emergency Transport Services**

- A. ICE detainees who are not accepted into the custody of the Service Provider during the course of the triage process because of a need for immediate hospitalization shall be taken by ICE to its contracted hospital. Service Provider shall not be responsible for completing a Treatment Authorization Request (TAR) in instances in which the ICE detainee was not accepted into the custody of the Service Provider.
- B. If ICE detainees are determined during the course of their detention to require hospitalization, medical transportation shall be coordinated by the Service Provider to a hospital willing to accept ICE reimbursement and payment conditions. The Service Provider shall comply with all Department of Immigration Health Services (DIHS) Treatment Authorization Request (TAR) procedures.
- C. ICE detainees requiring off-site medical services shall be transported by the Service Provider to receive the required medical care. The Service Provider shall comply with all DIHS TAR procedures.
- D. The cost of all medical services provided off-site shall be the responsibility of ICE.
